

## Information for Authors

The BJAMCC recommends that authors follow the “Recommendations for the Conduct, Reporting, Editing, and Publication of Scholarly Work in Medical Journals” formulated by the International Committee of Medical Journal Editors (ICMJE).

### Editorial Scope:

- The BJAMCC is intended to promote prompt publication of concise, scientific articles based on the study in all fields of medical and health sciences with special predilection to matters concerning acute and critically ill patients & practices in the acute medicine and critical care units.
- BJAMCC takes issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. We are committed to protect the rights of our authors and will investigate claims of plagiarism or misuse of published articles. BJAMCC also seeks to protect the reputation of the journal against malpractice. Submitted articles may be checked with duplication-checking software.
- Submitted manuscripts should not be previously published or currently being considered for publication elsewhere.
- All submitted articles will undergo double blind peer review as per recommendations by subject specific experts selected by editors.
- Reviewed manuscripts will be sent to the corresponding author for appropriate response if it is indicated.
- Acceptance is based on significance, originality, clarity and fulfillment of the criteria of the publication policy of this journal.
- The Editor-in-Chief will make all final decisions regarding acceptance.
- Selection of the reviewed and accepted manuscripts intended for publication in a particular issue will be decided by the Editorial Board.
- Upon acceptance for publication the copyright of the paper automatically transfers to the BJAMCC and will not be published elsewhere either in part or whole without written permission of the copyright holder.
- Review articles should be written by a subject expert.

### Ethical Aspects:

- Clinical trials should have been conducted according to the ethical standards laid down in the 1964 Declaration of Helsinki by World Medical Association; amended October 2024 ([https:// www.wma.net/ policies-post/ wma-declaration- of-helsinki/#:-: text= The%20protocol%20should% 20include %20 information, provisions%20 for%20 treating %20 and% 2For](https://www.wma.net/policies-post/wma-declaration-of-helsinki/#:-: text= The%20protocol%20should%20include%20information, provisions%20for%20treating%20and%20for)).

- Manuscripts must contain a statement in the method section that all interventional studies have been approved by the appropriate ethical committee after careful examination of the ethical aspects.
- Permission of the patients or their families to reproduce photographs of the patients where identity is not disguised.
- Author(s) should obtain written permission to reproduce any table or illustration from any other source.

### Manuscript Submission:

The authors are requested to strictly follow the guidelines below for submission of manuscript to BJAMCC for publication. The following documents with manuscripts are to be submitted for publication.

- A cover letter addressed to the Editor-in-Chief of the journal.
- A title page.
- Abstract and key words in the first page followed by the text, prepared in the format of IMRaD (Introduction, Methods, Results, [and] Discussion).
- Authors may submit electronic copies of all documents with appropriate labeling via email to the Executive editor (editor.bjamcc@gmail.com).
- Manuscripts & tables should be in typed in Microsoft Word (\*.docx) and figures should be in JPEG (\*.jpg) format.
- Formal cover letter signed by all the authors should be scanned (\*.pdf) & submitted along with the documents.

### Cover Letter:

- All authors must sign after seeing the manuscript with the statement that they are the only authors.
- It should contain a declaration that this manuscript has not been submitted elsewhere or currently not under consideration in any other journal.
- It should clearly indicate the publication type (Original/Review/Case report/letter etc.)
- Should also mention the expected benefit of medical science from publishing of this article & the rationale of publishing the article in BJAMCC.

### Manuscript Organization:

#### Typing

- Double spaced throughout with justified paragraph format and 5cm margin form the header and 2.5cm margins in all other aspects
- Font type is Times New Roman with font size 12.
- Manuscript should have uniform style, carefully proofread for grammar, spelling and punctuation

- All pages should be numbered consecutively beginning from the title page & number should be placed at bottom center of each page.

#### **Manuscript Format**

In general, original articles should be divided into following sections:

- Title page, Abstract, Text, Acknowledgement, References.
- Tables, graphs, illustrations should be appropriately placed in the manuscript with legends & foot notes as expected in printed version.
- Each of the sections is to start on a separate page

#### **Title page:**

- Title of the article
- Names of all authors with their designation and institutional affiliations
- Name of the department and institute where the study was undertaken
- Name of the corresponding author with contact address, telephone number, email address
- Disclosure of conflict of interest if any
- Disclosure of sources of funding or sponsor
- A short running head
- Three to five 'Key words' representing the article and suitable for electronic search
- Number of tables given
- Number of figures given
- Word count of abstract/summary

#### **Abstract/Summary:**

- Structured with headings (Background, Objectives, Methods with statistical analysis, Result & Conclusion) for original works.
- Author(s) names should not be given.
- Preferably within 250 words.
- No abbreviations in the title and abstract except standard abbreviation.
- A non-structured abstract is suggested for review article and case report.

#### **Text:**

- IMRaD (Introduction, Methods, Results, [and] Discussion)
- Text should be arranged into following sections: Introduction, Methods, Results, Discussions, Acknowledgement, & References

#### **Introduction:**

- Statement of the problems with a short discussion of its importance and significance
- Review of the literature related to the problem with pertinent reference
- Objectives/hypothesis/benefits expected stated in 1-2 paragraphs

#### **Methods:**

- Study type, place and time
- Description of study variables
- Description of study subjects and grouping
- Selection criteria
- Approval of the interventional study involving human subjects by ethical review committee and description of the ethical aspects in such study
- Description of procedure, methods, apparatus, drugs or chemicals as applicable
- Description of statistical procedure with enough detail to enable a knowledgeable reader with access to the original data to verify the reported results

#### **Results:**

- Present result in logical sequence in text, table and illustration with most important finding first
- Describe without comment
- Restrict number of tables and figures needed to support assessment of paper
- Do not duplicate data in tables and figures

#### **Tables:**

- Simple, self-explanatory with brief title, not duplicated in text
- Each table should be numbered in Romans and printed in appropriate place in the text
- Tables should be formatted by Microsoft word & presented within the \*.docx file, Not as a picture.
- Use of many tables is not encouraged

#### **Illustrations:**

- All illustrations must be of high-quality image & numbered consecutively in Arabic numerals as they appear in the text
- Figure number, title of manuscript, name of the corresponding author and arrow indicating top should be written on a sticky label affixed on the back of each photograph
- Scanned picture, graph, chart with title and figure number should be placed at the appropriate place as expected in the printed version. Additionally, the images must be submitted by separated file attachments through email.
- Photomicrograph should indicate the magnification, internal scale and the method of staining.
- All drugs should be mentioned in their generic form. The commercial name may be used in parenthesis.

#### **Acknowledgement:**

Individuals, institution, sponsor, organization or bodies should be acknowledged in the article for their contribution or financial or any form of assistance to the work

### References:

- For reference, use author number style (Vancouver) which is based on an ANSI standard adapted by the National Library of Medicine (NLM)
- References should be numbered consecutively in the order in which they are first mentioned in the text
- Identify references in the text, tables and legends by Arabic numerals in superscript
- All citations to electronic references should be presented in numbered references following the text
- The titles of the journals should be abbreviated according to the style used in Index Medicus
- Write names of 6 authors followed by et al. if authors number is more than six.
- The reference list is not usually verified by the editorial staff or reviewer. It is the total responsibility of author to provide accurate information.
- Consult <http://www.nlm.nih.gov/citingmedicine/> for full detail of the referencing system followed by BJAMCC.

### Examples of common referencing is given below:

#### Standard journal article:

- Anam AM, Rabbani R. Ogilvie's syndrome in severe dengue. *Lancet*. 2013 Feb 23;381(9867):698.

#### Journal article with organization as author:

- American diabetes Association. Diabetes update. *Nursing*, 2003 Nov; Suppl: 19-20.

#### Journal article with multiple organizations as author:

- American Dietetic association; Dietitians of Canada. Position of Dietetic association and Dietitians of Canada: nutrition and women's health. *J Am Diet Assoc* 2004 Jun; 104(6): 984-1001.

#### Journal article with Governmental body as author:

- National Institute on Drug Abuse (US); Caribbean Epidemiology Centre; Pan American Health Organization; World Health Organization. Building a collaborative research agenda: drug abuse and HIV/AIDS in the Caribbean 2002-2004. *West Indian Med J*. 2004 Nov; 53 Suppl 4: 1-78.

#### Standard book with initials for authors:

- Eyre HJ, Lange DP, Morris LB. Informed decisions: the complete book of cancer diagnosis, treatment and recovery. 2nd ed. Atlanta: American Cancer Society; 2002. 768 p.

#### Contributed chapter of a book:

Rojko JL, Hardy WD. Feline leukemia virus and other retroviruses. In: Sherding RG, editor. *The cat: diseases and clinical management*. New York: Churchill Livingstone; 1989. p. 229-332.

### Conference Proceedings:

- Pacak K, Aguilera G, Sabban, E, Kvetnansky R, editors. Stress: current neuroendocrine and genetic approaches. 8th symposium on Catecholamines and Other Neurotransmitters in Stress: 2003 Jun 28-July 3; Smolenice Castle (place of conference), Slovakia. New York (place of publication): New York Academy of Sciences (publisher); 2004 Jun. 590 p.

### Scientific and Technical Reports:

- Page E, Harney JM. Health hazard evaluation report. Cincinnati (OH)(Place of publication: National Institute for Occupational Safety and Health (US) (Publisher); 2001 Feb.24 p (Total number of pages). Report No.: HETA2000- 0139-2824

**Editing and peer review:**

- All submitted manuscripts are subject to scrutiny by the Editor in-chief or any member of the Editorial Board.
- Manuscripts containing materials without sufficient scientific value and of a priority issue, or not fulfilling the requirement for publication may be rejected or it may be sent back to the author(s) for resubmission with necessary modifications to suit one of the submission categories.
- Manuscripts fulfilling the requirements and found suitable for consideration are sent for peer review. Submissions, found suitable for publication by the reviewer, may need revision/ modifications before being finally accepted.
- The Editorial Board finally decides upon the merit of the reviewed and revised/modified submission.
- Reviewed accepted manuscript may be sent to the authors, and should be corrected and returned to the editorial office within one week. No addition to the manuscript at this stage will be accepted.
- All accepted manuscripts are edited according to the Journal's style.

**Submission Preparation Checklist**

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

- The submission has not been previously published, nor is it currently before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in Microsoft Word, \*.docx file format.
- Where available, URLs for the references have been provided.
- The text is double-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

**Communication for manuscript submission:**

Authors are requested to send new and revised manuscripts to the following address:

**Editor-in-Chief**

Bangladesh Journal of Acute Medicine and Critical Care  
Email: [editor.bjamcc@gmail.com](mailto:editor.bjamcc@gmail.com)
